

I think it a good idea to go after this guy and take out all from D/C.
For MFM and RA, from LSH. 3 Mar

D/M's request for Army (memo 28 Feb)

1. About mid-Jan, being informed we could use military people only when we required purely military qualifications or experience no civilian could be expected to have, we reworked our list and assigned 10 to D/I and 2 to A/EC (present assignments to be undisturbed until individuals relieved) and Mr. Wolf approved.

2. Herewith first request that would require exception, that logistician be assigned D/M. DDA would probably not object, since slots are for Office rather than divisions so far as they know. Do we wish to change our own plans?

Yes, subject to review, etc.
